Education

Pandit Deendayal Energy University

March 2025 - Present

Bachelers in Information and Communication Technology

• GPA: 8.08/10

Projects

Portfolio Optimizer with PSO and Asset Management Website:

- Technologies in this project: HTML/CSS, JavaScript, Python, Particle Swarm Optimization (PSO), Flask,
- Developed a portfolio optimization tool using Particle Swarm Optimization (PSO) to compute efficient asset allocations based on risk-return trade-offs.
- Designed and implemented a responsive frontend web interface to manage and visualize asset data, allowing users to input portfolios and view optimized results.
- Integrated backend optimization algorithms with the frontend using Flask, enabling real-time interaction and dynamic updates of investment strategies.
- Focused on usability and clarity in presenting financial metrics, charts, and optimization outcomes.

Technologies

Languages: C, C++, C++ STL, Python, Javascript (Basic)

Software Tools & Libraries: Node.js, Socket.io, Express.js, Tailwind CSS, Pandas, Matplotlib, Seaborn, Git, GitHub, VSCode, Google Colab

FrontEnd: HTML, CSS, Tailwind CSS

Others: OOPs, Data Structures.

Competitive Programming

Codeforces - Ranking 862 Newbie

Codechef - 1 STAR rating - 1076

Leetcode - Ranking 1411, Solved 150+ Problems (134 Easy, 46 Medium, 3 Hard)

General Skills

Languages: English, Hindi, Gujarati

Others: Team Work, Communication Skills, Logical Reasoning
